

ABBIE ELIZABETH GAWTRY

-Junior Interior Designer-

PROFILE

I am an innovative individual who has a very meticulous and practical style when it comes to design. I have a passion for interior visualisation. My approach to envisioning space is led by the impact of experiences to be had within them.

I enjoy working on design in a theoretical point of view, as I am a designer who's inspiration comes from the world of architecture around me. I thrive for new experiences and surroundings.

I chose to pursue a career in Interior Design because it will provide me with the opportunity to express myself creatively on a regular basis. Therefore allowing me to work alongside others who share my determination for helping to bring clients visions and needs to life.

I am confident working both collaboratively or individually, as I recognise and respect different perspective. I am a honest individual who enjoys offering support to other members of a team across multiple creative sectors, in order to exceed every possibility to improve and adapt.

DESIGN EXPERIENCE

Junior Designer Work Placement (2018 - 2019)
SIM Shopfitting / Leading Edge Signage & Graphics.

My work experience involved working across two companies. Sim Shopfitting projects required me to provide clients with rendered images and plans of their proposed spaces. Leading Edge Signage and Graphics projects involved interior & exterior branding using both product and graphic design.

- Produced working drawing packages and 2D/3D Design visualisations of retail & commercial spaces.
- Assisted a team of 4 members with planning and designs for both graphic & interior projects based on clients specifications.
- Creating research & design proposals to be pitched to the team & clients.
- Conscientious space planning and site surveying.
- Designed sketches and visuals, to accurately interpret and represent the clients ideas under strict deadlines.
- Concept development of branding.

CURRENT EMPLOYMENT

Shift Supervisor (2019 - Present)
Starbucks, Cleckheaton

- Train and direct staff members, in order to effectively run the shift.
- Fast paced customer service.
- Cash Handling accuracy & organising rotas.

ACHIEVEMENTS

- Short-listed for the International Retail Design World Student Awards competition.
- Achieved "Best Socially Focussed Project" for Final Major Project- Canalside.
- Featured in Dezeen Virtual Design Festival for University of Huddersfield.
